THE BIG ISLAND HAMGRAM

The newsletter of the Big Island Amateur Radio Club

Photos by WH6LQ and KH7DQ

Local amateur radio volunteers provide communications each year for the 'Ohia Lehua Runs in Volcano. Above: the net control station coordinated by Doug Wilson, KH7DQ, who thanks all of the hams who helped along the running routes.

At the Volcano runs

Luke McKay
(WH6GRW)
makes the 5K
turnaround.

Ten ham radio operators volunteered, once again, to provide radio communications for the annual Volcano 'Ohi'a Lehua Half-marathon and 5k Runs on July 25.

"Radio stations were set up throughout the course, including net control at the start/finish line to provide real time status reports on the runners and emergency traffic when needed," said Doug Wilson (KH7DQ) who coordinated com-

munications for the race.

"There were 435 runners in this year's race. Two of the 5K runners missed their 5K turnaround sign and our ham radio operators arranged for their safe return to the finish line.

"This year, our favorite runner, "Fireball" #393, finished at 10:59, just before the race ended at 11:00 am.

"And one of our own, Luke McKay #199

FT-8 demo by John Bush, KH6DLK; Tom English, WH6EBS.

Tom English, above, shows the rig used for the FT-8 demonstration. BIARC Yaesu FT991A coupled with a Mac-Book Air going out to a Super Antenna on the lawn at Kamana Center. Tom & John gave a very good orientation on FT-8. Entire rig was off grid and quite compact. Several contacts were made showing the capability of the set-up.

John Bush shared a new Anker Solix portable power generator. Lightweight and very capable. Features multiple outlets including AC, USB, and charging input for solar charging. Available at Battery Bill's.

BIARC education committee assists at first Science Night

On July 30, the BIARC Education and Outreach Committee took the message of ham radio to the first Science Night of the new school year.

This free event, hosted by the Hawaii County Department of Parks and Recreation at the Keaau Armory, promised fun for the entire family.

It featured activities related to science, technology, engineering and math (STEM); hands-on experiments; space and astronomy exploration; opportunities to connect with local STEM organizations; and fun learning experienc-

es for all ages.

Science Night is a collaboration between the county, Starbase Hawaii, and the Hawaii Science and Technology Museum.

Many community partners led activities. Participants also included the Gemini Observatory, Subaru Telescope, Hawaii Army National Guard, the University of Hawaii Institute for Astronomy, Hawaiian Volcano Education and Resilience Institute, and Pacific International Space Center for Exploration Systems.

Committee Report on Page 5*

2026 'Ohia Lehua Runs

From Page 1

"Fireball" #393 crosses the finish line.

Runners on Wright Road.

(WH6GRW), ran the 5K race while his wife, Kim McKay (WH6GQD) was cheering him on from her "Marshall 3" station," said KH7DQ.

Participating radio operators included Doug Wilson as the Net Control Station, David Miller (KH6CZ) at Aid Station #1, Dale McBeath (WH6DGM) at Aid Station #2, Ellen O'Dunn (WH6FRV) with Course Marshall #2, Kim McKay (WH6GQD) with Course Marshall #3, Bob Becker (WH6ESC) with Course Marshall #4, Linda Quarberg (WH6LQ) at the 5k Turnaround, Tom

Fischer (KH6TD) at the Haunani Road Turnaround, Daran Campbell (WH6GII) with Police Officer #1 and Frankie Green (KH7FG) at the Highway 11 station.

"The weather was rainy throughout the race, but, our "hamsters" persevered as expected.

"They did an excellent job keeping track of runners as they made their way around the course and provided real-time runner status reports from the field to Net Control for the announcer and race headquarters throughout the

race," said KH7DQ.

"They also got in some good radio procedure practice, including the use of tactical call signs and finding the best spot at their respective stations for the optimal signal into the Volcano Repeater and Net Control.

"Radio operators also enjoyed the interaction with runners as they made their way around the course!

"Thanks to all for their community service in unpleasant conditions and stepping up to the plate when runners needed assistance!"

Annual Grid Madness simplex event set for Sunday, Sept. 27

Hippo Dude

2026 Grid Madness mascot

Grid Madness.

The title says it all.

And all licensed hams are invited to participate.

The popular fall event will be held on Sunday, Sept. 27, from 1300 until 1700 HST.

This date was picked especially not to conflict with the Ka'u Coffee Trail Run, which draws a big group of ham volunteers helping with communications for the races. The Ka'u event will be staged on the previous Sunday.

Details are being firmed up, and info specific to the 2026 Grid Madness event is now provided at <https://gridmadness.blogspot.com/>

Check that site for details, and get an overall feel for the contest. It will seem familiar to previous participants, since information doesn't change much from year to year.

Grid Madness is a statewide event, and last year Hawaii Island hams were joined by folks on Kauai, Maui and Oahu. There was lots of relaying going on and plenty of comments about how much fun everyone had.

The contest is open to licensees at all levels and is on simplex only.

The four-hour event is designed for EMCOMM practice, and for FUN.

Test your equipment, coverage and operating skills using FM simplex on 6 meters, 2 meters, 1.25 meters and 70 cm.

It's already August!

Please save the dates: Aug 23-24 for the Hawaii QSO Party

<https://www.hawaiiqsoparty.org/>

The HQP will run from 1600Z on 22 August thru 1800Z on 23 August, 2025. Work as many stations on as many bands and modes as you can. Please note that this is 6 am Saturday through 6 pm Sunday local time. The overall time has been reduced from 48 to 36 hours eliminating the Friday night hours.

This is Hawaii's one big HF event of the year and there will be a LOT of folks out there looking for HI. This event will be active for 36 hours, but no one has to be active the whole time. Think of it as a 36 hour window of opportunity. Play radio as much as you like during those hours. Make one QSO, two QSOs, 10, 100, 1,000 .. whatever. Just get active! Then send me your log. Test your station and your operating.

Most important: Have FUN. Please review the rules as there have been some changes: <https://www.hawaiiqsoparty.org/rules-page/>

All digital modes (RTTY, FT8, FT4, PSK, VarAC, whatever) are considered "digital" so there are three modes to use: CW, Phone, Digital.

ALSO (drum roll) W1AW/KH6 will be active during HQP this year. A QSO with W1AW/KH6 may come from different Hawaiian QTHs in which case you will be credited with having worked those Multipliers. You may also operate as W1AW/KH6 during HQP (or that active week). If so, you'll need to log QSOs separately from your home call. Sign-ups for specific band/time/date/mode will be taken starting today. Please consult the spreadsheet and send me an email requesting your desired operating block. First come, first served. The spreadsheet (copy then paste into your browser):

https://docs.google.com/spreadsheets/d/1Hc7zm2eKTNJLIakzvK3NwfeuvWf_UiaXUjKcDRYzjIU/edit?usp=sharing

Please contact me at info@hawaiiqsoparty.org if you have any questions or suggestions.

Also, please let other hams know about this Party.

*With Aloha,
Alan AD6E / KH6TU
HQP Chairman
W1AW/KH6 coordinator
August 2, 2026*

qsoparty.org/](https://www.hawaiiqsoparty.org/)

Need a tower climber?

While at the Kea'au Science Night I met a young man named Joe. He has experience climbing towers from when he lived on the mainland and did a lot of work on them for communications equipment. So if you are looking for a climber let me know and I can get you his number. he lives in Kaimu.

He is also interested in setting up his own low wattage radio station in Kaimu and has his own 56' tower he is planning to put up. Anyone interested in working with him on that would be appreciated.

Jim Tatar WH6EMN

Maui County works to recruit additional licensed hams

Maui County officials looking to expand Maui's emergency communications network recently offered a free workshop aimed at recruiting more licensed amateur radio operators. Officials noted that a busy hurricane season is expected.

The event was presented Saturday, June 27, at the University of Hawaii Maui College in Kahului. Looking to expand the pool of licensed operators, coordinators invited residents to learn more about amateur radio to help keep communities safe.

The day-long event was open to all ages. It included live demonstrations as part of a national exercise involving hundreds of radio operators.

Amateur radio operators on Maui are activated by the Maui Emergency Management Agency during disasters. They helped with communications following the 2023 wildfires and were active during the March Kona low storms.

Public Service Report for August

During July, I managed to get to Honokaa Hospital and begin the transition of some radio equipment. The Meshtastic G2 relay node was reinstalled and has brought out a couple of other nodes that were not seen in Pauilo. Linking to other hospital equipment is planned so non licensed personnel can contact the Hilo Benioff Medical Center.

At the Hilo Benioff Medical Center I took down the 8010 end fed antenna and put up the Buckmaster 8010 offset dipole after finally getting the third mast up for that operation. That should keep them in communication until early next year when they move to the new wing.

Jim Tatar,

WH6EMN, chair

Monthly breakfast gathering

The informal multi-club First Saturday of the Month Breakfast gathering is an East Hawaii tradition. Over the years, interested hams have met at varying venues on that first Saturday.

There's no formal agenda, and everyone is welcome. The current setup is at 7:30 a.m. at IHOP restaurant in Hilo.

Ham Radio Gear Sale!

AH6KO is cleaning up the shack. Items for sale include an HF radio, several VHF/UHF radios, antennas, coax, books, parts, and more. Everything is priced to move; free stuff too!

- View the inventory: <https://tinyurl.com/4s9t96fc>

- Contact Stan: AH6KO.radio@gmail.com or 808-238-8229

- Initial sale date set for Saturday, August 8.

Corrections

In the July Hamgram, one of the Field Day participants was misidentified in a photo as WH6GZZ, when the caption should have said KH7CN. The Hamgram apologizes to both of the hams for the error.

Follow-up demo on basics of digital radio ... *bring your radio to August meeting*

From BIARC Secretary Jim Tatar, WH6EMN:

John Bush and Tom English put on a great demonstration of the basics of digital radio in July.

There will be a follow up demo with anyone who will bring their radio to the August meeting on setting up your radio to operate digital.

Hope to see you there with your radio.

Introduction to Digital Radio

At our July meeting John Bush and Tom English went over the basics of a digital radio system requirements with a live setup on the lanai area at the Kamana Center.

Starting with the different types of radios and needed accessory equipment a radio may need to become digital capable. They had the radio, antenna and other associated equipment on hand to give a live demonstration for everyone there to observe and to operate.

Both John and Tom have asked that if you aren't sure about your radio's digital capabilities to bring YOUR RADIO to the meeting on August 9 and they will check it out and let you know what you need to complete your setup.

Quite interesting that both men recommend you start out with FT8 or a similar simple program and then upgrade to the Winlink system after getting some experience on setting up for digital. While many radios adapt readily to digital others take more steps and practice to get them up and running properly.

One major point with digital is that while it is a very impersonal it is being found to be more reliable than voice with all of the noise being introduced into our radio spectrum with so much additional electronics being introduced on our planet.

*Jim Tatar, WH6EMN
Secretary*

BIARC Education and Outreach Committee report on July activity

Participation by the BIARC EOC

The BIARC Education and Outreach Committee attended the Science Fair at the Keaau Armory on Friday, July 30. Another successful spearheaded by our itinerant team of roving operators. Jim, Fred, Leigh and David were active in engaging with the community of Keaau at the site. James Tatar WH6EM, Fred Fischer WH6HAA, Leigh Critchlow WH6LC (On The Air at 146.760 from Mountain View) and David Miller KH6CZ. Mark Watanabe WH6FSA present in spirit.

We had a great evening with the kids and their parents and look forward to similar events forthcoming. The Armory Event marked the beginning of the new School Year and Science Fairs scheduled throughout Puna.

Next Up: We will be attending the Science Fair at:
Location: Keaau Elementary School
Date: Tuesday August 18th, 2026
Time: 4:30 PM - 6:00 PM

David Miller
KH6CZ
EOC Chair

The younger operators pick up the microphone moves quickly and they engage naturally with Leigh. They also love Fred.

The Hawaii County Department of Parks and Recreation hosted the community to Science Night from 5 to 7 p.m. July 30 at Keaau Armory. The free event featured activities related to science, technology, engineering and math as well as hands-on experiments, space and astronomy exploration, opportunities to connect with local science, technology, engineering and math organizations; and fun learning experiences for the whole family. Science Night is a collaboration between the county, Starbase Hawai'i

Family engagement and information shared. James spreading the word.

C O N T E S T I N G

Jeremy, KH7CN, enjoys contesting, and encourages other hams to get involved. Here are some of his recent awards.

Ranked 741 out of 1736 in the world.

CQ, CQ, CQ Cats and Dogs!

During August, QSOs could sound like cats and dogs!

An international group of operators from Latvia, the United Kingdom, the United States, Netherlands, India, and Germany, will be on the air throughout the month in a mutual celebration of International Cat Day and International Dog Day. Officially, International Dog Day (in the US, National Dog Day) is August 26 every year. International Cat Day is August 8.

The combined special event stations will be active August 1 – 31, 2026 to call attention to the needs of abandoned, abused and homeless pets around the world.

In the United States, a team of operators will be on the air as KØDOG, operating throughout the country at different times. Additional dog-station call signs will include YL1DOG, GB4DOG, VU2MGS, DLØDOG and PDØØDOG. Cat stations will be calling CQ as DLØCAT, GB4CAT and DAØCAT. All operators will be on the HF bands using CW and SSB.

Two websites with additional information are dogdayradio.org and catdayradio.org and the main landing page, hamlog.online/iddicd2026, will give hunters for both events a chance to claim their awards as they earn them and to see who is currently on the air.

KØDOG also plans to make downloadable eQSL cards available.

New ARRL 10-Band DXCC Award

ARRL has introduced the new 10-Band DXCC Award plaque, recognizing radio amateurs who have achieved DXCC on all ten HF amateur bands from 160 through 6 meters.

The new award celebrates the accomplishment of having confirmed at least 100 DXCC entities on each of the following bands: 160, 80, 40, 30, 20, 17, 15, 12, 10, and 6 meters (excludes 60 meters). Eligibility is based on the total QSLs reflected in your ARRL

Logbook of The World[®] (LoTW[®]) account. No additional contacts are required beyond those needed to qualify for DXCC on each individual band. If your DXCC credits are not already visible in LoTW, you must first link your DXCC and LoTW profiles by requesting a credit merge from the ARRL Awards Desk.

Applicants simply complete and submit a DXCC Item Order Form to order the 10-Band DXCC plaque after self-verifying the qualification requirements in LoTW. Complete details are available at www.arrl.org/10-band-dxcc.

The new ARRL 10-Band DXCC Award.

Understanding Contesting

Ham radio contesting is a competitive activity where operators aim to contact as many amateur radio stations as possible within a specified time frame. Each contest has its own set of rules, including operating times, frequency bands, and required exchanges of information.

DXer and DXpeditioner Kan Mizoguchi, JA1BK, Silent Key

Kiyoshi “Kan” Mizoguchi, JA1BK, a well-known DXer, DXpeditioner, CQ DX Hall of Fame member, and former Director of the International Amateur Radio Union (IARU) Region 3, passed away in May 2026 at the age of 93. He was a member of the ARRL Maxim Society at the Fellow Class.

First licensed in 1952, Mizoguchi became involved in the creation of IARU Region 3, which covers most of Asia and the Pacific, and served as a Director from 1968 to 1975.

Kan Mizoguchi, JA1BK, SK, at Dayton Hamvention® 2016. [Dave Patton, KW9A, photo]

His interest in DXing included both chasing and being the DX, and he is credited with identifying new entities and helping put them on the air for the first time. Some of those places include the Marquesas, the Australs, the Chesterfield Islands, Ducie Island, and Swain's Island.

Mizoguchi built a competitive DXing station and achieved success as a DXer, reflected in his award achievements in the ARRL DX Century Club – DXCC. He reached 383 countries in the Mixed DXCC category, 382 on phone (within the top ten in the world), and 354 on CW. He was on the *Top of the Honor Roll* with all 340 current entities on Mixed, Phone, and CW. He is perhaps best known for his impressive total of 271 countries on the 6-meter band – 8th place in the world and 1st in Asia.

BIARC Executive Board

Directors Minutes BIARC

Sunday June 14, 2026

Call to Order: 12:14 PM

Present: Thomas Avila KH6GG, Dave Miller KH6CZ, Fred Fischer WH6HAA, Shawn Farley WH6GXZ, Jim Tatar WH6EMN.

Excused: William Polhemus NH6ET, Bernie Walp, WB6PIO.

Old Business:

Minutes of November 2025: Postponed as William Polhemus is not present, minutes will be presented at another time.

Digi Rig letter: Thomas Avila will forward the needed information on the digi rigs to Jim Tatar for a thank you letter from BIARC.

List Serve transfer: A new list serve mechanism will be established. More on that later in the meeting.

We need to explore for a local hot spot for use by the club. Requested to find options by July meeting. Mark Kaponi will be managing new service for club. C.ofH. WiFi does not work for many programs the club needs at Kamana Center.

Treasurers Report:

The only expense paid was the fees for domain host and annual cost. See attached report.

We are not able to contact one of our past signatures and need to get the new approved board members on the signature list with our BOH account. Fred has the necessary paperwork for the bank and made a motion to transfer from the old signature card to a new signature as approved by the board.

Fred Fischer made a motion to end use of the old signature card and to adopt a new signature card. Shawn Farley gave a 2nd on the motion. The motion was voted on and passed unanimously. A paper for this motion for new signatures was circulated and signed by all available members and signatures' with Les Hittner not in attendance today.

The debit card will be requested by Fred after the signature card work is complete.

Bylaws and Constitution:

A motion was made by Jim Tatar to adopt the updated Bylaws and Constitution with the most recent update as of May 17, 2026; all subject to further updates and or corrections if any are found. Dave Miller made a 2nd and the motion was passed unanimously to adopt both.

Minutes of May 2026:

Jim Tatar made the motion to accept the May minutes of both the Directors meeting and the General meeting as sent out to directors. Dave Miller made the 2nd, and the motion passed unanimously.

Working Groups reports:

Programs: The program chair is vacant- no report

Voice repeaters -William is not present.

Digital Systems -Shawn- no report

Operating Activities- William is not present

Public Service- Jim Tatar - No change

Education and Outreach- Dave Miller, as attached

Field Day:

Main group will be at Wailoa Park next to the wedding pavilion, no pavilion rented so get there early and get the small pavilion. Need to bring pop up, cooler, food, radios, antennas, batteries.

New Business:

Fred submitted the liability insurance bill which he already paid from his own funds and Tony signed to reimburse him.

Jim made a motion that the list serve will only be for current members. Fred made a 2nd and the motion carried unanimously.

Jim made a motion that Mark Kaponi manage the ham gram and Fred 2nd the motion. Motion was voted on and carried unanimously.

The ham gram will still go out to everyone on the current and new members list.

Education and Outreach is working with Issac Pedro at Pahoa High school to help establish a radio club there. There will be an initial meeting to start the program.

Meeting Adjourned at 1:19 PM by Thomas Avila, President

Meshtastic Infrastructure

Meshtastic infrastructure is built on the foundation of decentralized, off-grid communication using LoRa technology. It enables low-power, long-range communication over ISM radio bands, making it suitable for various applications, including IoT projects and emergency response. The project is community-driven, with a strong DIY ethos, and has found applications in remote areas, natural disasters, and areas with internet censorship. Meshtastic's optional location-tracking capabilities allow for monitoring community members without relying on data-intensive commercial applications.

[Meshtastic](#)

The infrastructure is composed of clusters of nodes communicating locally with each other and expanding as clusters become visible to one another. Without linking infrastructure, connecting from one cluster to another is not possible, but some MQTT relay features exist. The use and development of the network require very few resources, as simple DIY nodes based on widely available devkits are sufficient.
